pure state of the Blood, or Habitof the System. The operation of this preparation is three-fold. It acts as a ton-ic, strengthening the digestive power and restoring the appe-tite, as an aperient, peculiarly suited and gentle in its laxative effeet, and as an antiseptic, purifying the fluids of the body, and neutralizing in the blood the active principle of disease. The many well authenticated cures of Scrofula of the most malignant character wrought by Sands' Sarsaparilla, have given it a wide and deserved celebrity. But it is not alone in Scrofula nor in the class of dise-ses to which it belongs, that this preparation has been found beneficial. It is a specie in many diseases of the skin, and may be administered with favorable results in all ; it also exercises a controlling influence in bilious complaints; and when the system has been debilitated either by the use of powerful mineral medicines or other causes, it will be found an excellent restorative.
